**Compact Rider Scrubbers**

### General Overview

- Wide 38" Scrub Path
- Available in disc or cylindrical
- Provides maximum productivity for the hardest and most demanding maintenance projects
- Large solution/recovery tanks constructed of high impact polyethylene for longer scrubbing time and easy tank filling and flushing
- Solid, channeled steel frame with steel plating, built to last
- On the spot maneuverability in a compact rider scrubber

### Productivity

- Disc model has two 20" rotary disc scrub brushes that scrub at 300 rpm
- Cylindrical model has two 38" brushes that scrub at 900 rpm
- 66 gallon large capacity solution/recovery tanks allow for longer scrub time and less filling and flushing
- Turns 360 degrees on its own axis for on-the-spot maneuverability
- Scrubs and dries in a single pass

### Ease of Use

- Operator friendly control panel constantly monitors operations
- Adjustable cushioned safety seat makes it comfortable for the operator
- Tilt steering wheel to enhance operator comfort
